

Unique hygiene!

**Disposable
cleaning brushes**

Disposable cleaning brushes

Our disposable cleaning brushes offer you a high level of safety. The sophisticated concept enables brush cleaning of all Richard Wolf instruments.

Color coding helps you quickly and reliably select the validated brush for the specified instrument diameter, ensuring that you always end up with a hygienically perfect medical product.

This not only saves you time in daily clinical practice, but also a considerable amount of documentation effort.

- Various brushes for the entire range of Richard Wolf instruments
- Color coding
- Brushes validated for the specified diameter
- No reprocessing required

Cleaning brushes for single use	Brush head Ø mm	Brush length mm	Total length mm	Color	For channel Ø mm	Model

For this:

Storage rack for cleaning brushes

for storing and easily removing cleaning brushes,

for wall mounting, material: stainless steel, reusable 7970901

Disposable cleaning brushes

The double cleaning brushes for single use are intended in particular for efficient cleaning of Richard Wolf stopcock housings and stopcock inserts. The completely removable and maintenance-free stopcock design can be cleaned highly effectively and hygienically with the help of specific brushes. The different sizes of the stopcocks were also taken into account.

- Specifically for cleaning stopcocks from Richard Wolf
- For stopcocks with 2, 3, and 4 nubs
- For single use

Dispenser for cleaning brushes

for storing and easily removing cleaning brushes,
for table mounting, material: stainless steel,
